Thank you for taking the time to register for Appetite. From your dashboard you can edit your venue(s) and add users to help you administer them, whether a chef to get the menu items right or a member of staff to edit your details!

Venue(s) We know most people only have one but if you have multiple outlets, we thought it best to allow you to administer them from one portal so all your venues will be listed here. If you'd like to add another venue, please email eat@appetite.je.

Adding a user Click 'Team' and you can add and remove users. When you add someone, they will receive an email invite from Appetite and be able to register and administer your portal with you.

Welcome to your appetite admin. We're giving you control!

You'll be able to update your details at any time and add menus as we do promotions as you wish. Take ten minutes to click through the details on the left and build your complete profile.

Your profile

We're building a wider profile for use for our savour festival and future events. We're building this appetite platform as a self-service marketing tool you'll be able to use in future. We'll be adding our own elements but the more details you can add ,the better you'll look!

Add your Savour menu and when it's available

When adding a menu, you'll be able to select the days/ times when the menu is available, even if it's different to your standard opening hours. We want people to be able to search for your menu when it's live and not bother you when it's not!

are freshly made to order and are complemented by an extensive choice of beverages and wines.
